

## Call for Exhibition!

### **Safety of Industrial Automated Systems – SIAS 2024, June 12<sup>th</sup>-13<sup>th</sup> 2024, Tampere, Finland**

SIAS 2024 conference takes a close look at research and development in industry from safety viewpoint. The conference will be of interest to work systems end-users, designers and occupational health & safety experts interested in the general theme of Safety of Industrial Automated Systems. The planned topics describe a non-exhaustive list of suggested themes.

We invite your company to be present at the conference to extend your business and display your products and services to your colleagues around the world.

#### **Exhibition Package**

The exhibition package entitles you to

- chosen exhibition stand location
- two congress badges with admission to all the sessions during two conference days
- lunches, coffees, get-together party, conference dinner
- exhibitors have a possibility to give a 15 minutes presentation in vendor sessions after lunchtime
- visibility for exhibitor's logo on the conference website and in the conference program

Price: 1690 EUR+VAT (24%)

Reservations will be confirmed on "first come first served basis".
