

OPC and MES DAY

9 October 2012, Spektri Conference Center, Espoo

This year the event will be organized in co-operation of the OPC Committee and MES Forum. The agenda includes two parallel tracks; one for OPC and another for MES and Exhibition. Product vendors and integrators as well as end-users from business, industries and academia are invited to attend the event.

SPEAKER'S INTRODUCTION

Name:

Kees Lambregts, M. Sc.

Company:

Novotek

Function:

Business Development Manager

Biography:

Kees Lambregts studied Biomedical Engineering at the University of Technology in Eindhoven, The Netherlands. He received a Master's degree at the Stan Ackermans Institute for a research project on Computer Assisted Production Management. In 1996 he started his career as project engineer in process and production automation. He has built up practical implementation expertise of today's industry standards like ISA-88 and ISA-95. He was involved in large-scale MES implementations as technical consultant. Currently he is assigned as the business development manager of Novotek, master distributor of GE Intelligent Platforms in Europe.
