

OPC and MES DAY

9 October 2012, Spektri Conference Center, Espoo

This year the event will be organized in co-operation of the OPC Committee and MES Forum. The agenda includes two parallel tracks; one for OPC and another for MES and Exhibition. Product vendors and integrators as well as end-users from business, industries and academia are invited to attend the event.

THE PRELIMINARY AGENDA

OPC – The interoperability Standard for industrial automation Forum

- OPC use cases and benefits – Thomas Burke, President of OPC Foundation, USA
- OPC collaborations – Thomas Burke
- PLCopen and OPC UA – Stefan Hoppe, Beckhoff GmbH, President of OPC Europe, Germany
- OPC UA MES connectivity – Stefan Hoppe
- OPC UA for ISA95 – Paul Hunkar, DS Interoperability LLC, USA

MES – Manufacturing Execution System Forum

- Multi-Site MES Template and Rollout at AkzoNobel – Bianca Scholten, Accenture, The Netherlands
- The ISA-95 standard expands its horizon; integration of all manufacturing activities now within reach – Bianca Scholten
- Why You Should Implement MES: Results of a Survey Among Users with Practical Experience – Kees Lambregts, Novotek, The Netherlands
- Case FrieslandCampina: Traceability From End-User to Farmer in the Dairy Industry – Kees Lambregts

REGISTRATION

Registration fee 100 € + vat 23 % includes admission to the sessions, exhibition, lunch, coffees and material of the day.
