AUTOMAATIOPÄIVÄT23 15.–16.5.2019

THE FUTURE OF AUTOMATION – ARTIFICIAL INTELLIGENCE IN THE CLOUD?

AUTOMAATIO-PÄIVÄT
15.–16.5.2019

◉ Original Sokos Hotel Arina, Oulu

CALL FOR PAPERS

Papers are desired from all fields of theory and practice of automation

Automaatiopäivät23
is arranged by the Finnish Society of Automation (SAS) and it is the society´s most important seminar in the fields of process-, factory- and production automation as well as digitalization. The seminar program will contain presentations from both the industrial and the scientific worlds. The seminar will be a fantastic forum for networking between educational-, research- and business sectors.

Topics covered will include:
▶ IoT and cloud services
▶ education
▶ modeling and simulation
▶ energy solutions
▶ process automation
▶ robotics and machine automation
▶ functional automation
▶ theory and practice

WRITING INSTRUCTIONS FOR INDUSTRIAL OR SCIENTIFIC PAPERS

Three types of papers can be offered to the seminar:

1 **So-called traditional/industrial papers**, which can be written in Finnish, English or Swedish, will be accepted based on the abstract. Interesting case reports are welcomed as well.

2 **"Academic" or scientific papers** must be written in English and will be accepted for presentation and publication based on a peer review. Thereafter, the revised versions of the papers will be submitted to Open Engineering -journal for further review. At this point, the seminar board can issue supplement or correction requests for the papers. Accepted and published papers can be used as parts of a thesis or a dissertation.

3 **Student / discussion papers** should follow the writing guidelines of scientific papers when applicable.

PUBLICATION
▶ Traditional and industrial papers will be published at the organizer's web site **www.automaatioseura.fi**
▶ Accepted and revised scientific papers will be published as a proceedings publication in "Open Engineering Automation in Finland 2019 Special Issue". The authors of scientific papers will submit their papers to the journal for review.

SCHEDULE
▶ Title and preliminary abstract: Nov 30th, 2018
▶ Notification of Acceptance: Dec 31st, 2018
▶ Submission of manuscripts: Feb 1st, 2019
▶ Review comments: Feb 25th, 2019
▶ Final versions of papers: Mar 25th, 2019
▶ Automaatiopäivät23: May 15th-16th, 2019.

Submission of all abstracts, manuscripts, and papers via EasyChair system.

EASYCHAIR ▶
https://easychair.org/conferences/?conf=au23

Revised scientific papers
▶ Review comments 15.4.2019
▶ Submission opens 15.4.2019
▶ Submission closes 2.6.2019

Submissions in Open Engineering:
